In *Correlation Neighborhoods and the New Politics of Recognition*, author Michael Dawson argues that these two forms of inequality are deeply intertwined and that they cannot be solved separately. Dawson draws on a wealth of data to show how correlation neighborhoods are a major source of social and economic problems. He also shows how these neighborhoods

are often created and maintained by government policies that promote racial segregation and economic inequality.

Dawson's book is a must-read for anyone who wants to understand the challenges facing America today and who is interested in finding solutions to these challenges. It is a groundbreaking work of scholarship that will shape the debate on racial and economic inequality for years to come.

Reviews

"Correlation Neighborhoods is a brilliant and timely book. Dawson provides a powerful analysis of the intersection of racial and economic inequality in America. This book is essential reading for anyone who wants to understand the challenges facing our country today."

- Ta-Nehisi Coates, author of *Between the World and Me*

"Dawson's book is a must-read for anyone who wants to understand the deep roots of racial and economic inequality in America. He provides a powerful analysis of the ways in which these two forms of inequality are intertwined and how they can be solved together."
