About the Book

Practical Facial Reconstruction is a comprehensive guide to the surgical and non-surgical techniques used in facial reconstruction. The book is

divided into three sections:

1. **Section 1:** Basic Principles of Facial Reconstruction
2. **Section 2:** Surgical Techniques
3. **Section 3:** Non-Surgical Techniques

Section 1 provides an overview of the principles of facial reconstruction, including anatomy, physiology, and wound healing. Section 2 covers the surgical techniques used in facial reconstruction, including skin grafts, flaps, and bone grafts. Section 3 covers the non-surgical techniques used in facial reconstruction, including lasers, fillers, and Botox.

Practical Facial Reconstruction is a valuable resource for plastic surgeons, otolaryngologists, dermatologists, and other healthcare professionals who perform facial reconstruction surgery.

About the Author

Keith Tudor is a plastic surgeon with over 20 years of experience in facial reconstruction. He is the Director of the Facial Reconstruction Unit at the Royal Free Hospital in London, UK. Dr. Tudor has authored over 100 peer-reviewed articles and book chapters on facial reconstruction.

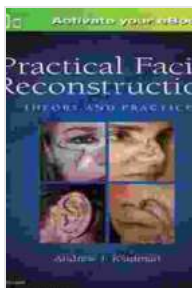

Reviews

“Practical Facial Reconstruction is a must-have for any surgeon who performs facial reconstruction surgery. It is a comprehensive and well-illustrated guide to the latest surgical and non-surgical techniques.”—**Dr. Peter Butler, Consultant Plastic Surgeon, Royal Free Hospital, London, UK**

“This book is a valuable resource for both experienced and novice surgeons. It provides a detailed overview of the principles and techniques of facial reconstruction, and it is well-illustrated with high-quality photographs and diagrams.” —**Dr. Joseph McCarthy, Professor of Plastic Surgery, New York University School of Medicine**

Practical Facial Reconstruction is a comprehensive and well-illustrated guide to the surgical and non-surgical techniques used in facial reconstruction. It is a valuable resource for plastic surgeons, otolaryngologists, dermatologists, and other healthcare professionals who perform facial reconstruction surgery.
