

The Winter War: The War to End All Wars

Despite being outnumbered and outgunned, the Finns fought valiantly against the Soviet invaders, ultimately forcing them to withdraw from Finnish territory. The Winter War is a fascinating and important chapter in world history, and its legacy continues to be debated today.

The Winter War was the culmination of a long period of tension between Finland and the Soviet Union. The two countries had fought a brief war in 1918-1919, and the Soviets had never fully accepted Finland's independence. In the years leading up to the Winter War, the Soviet Union had been pushing Finland to cede territory, and it had also been supporting communist activities in Finland.

The immediate cause of the Winter War was the Soviet Union's demand that Finland cede the Karelian Isthmus, a narrow strip of land that separated Finland from the Soviet Union. The Finns refused, and the Soviet Union invaded Finland on November 30, 1939.
